

**City of Mobile
Engineering Department
Land Disturbance Permit Checklist**

TIER 2

Project: _____ Date: _____

Address: _____

Printed Name of Engineer: _____

Signature of Engineer: _____

Professional License No.: _____

The following items must be submitted (unless otherwise denoted on the appropriate space below) to City of Mobile Central Permitting with the Land Disturbance Permit Application. The City will review only those applications that are accompanied by all appropriate items on the Land Disturbance Permit Checklist and by a completed Land Disturbance Permit Certification.

_____ Vicinity Map

_____ Legal Description

_____ Plans drawn to scale, stamped and signed by an Alabama licensed P.E.

_____ A brief narrative describing the existing site conditions and major elements of the project.

_____ Topographical details for existing conditions and proposed development.

_____ If an existing detention facility is utilized, documentation that the detention facility has been field-surveyed to verify the capacity and functionality of the existing detention facility. If it is found to be deficient, the pond will be brought up to the required capacity and functionality before a Certificate of Occupancy will be issued.

_____ Documentation of any credit claimed for existing impervious area prior to 1984 (implementation of Flood Plain Management Plan).

_____ Engineering calculations showing that the receiving storm drainage system can handle the additional flow due to the proposed development are provided, based on the method stated in the land disturbance permit certification.

Select one of the following regarding sedimentation and erosion control plan:

_____ Sedimentation and erosion control plan in accordance with the latest version of Alabama Handbook for Erosion Control, Sediment Control, and Storm water Management on Construction Sites and Urban Areas is provided.

_____ Sedimentation and erosion control plan in accordance with the latest version of Alabama Handbook for Erosion Control, Sediment Control, and Storm water Management on Construction Sites and Urban Areas, stamped by a professional engineer licensed in the state of Alabama, will be provided by the contractor, along with a letter of supervision for the erosion control plan, before a land disturbance permit will be issued.

**City of Mobile
Engineering Department
Land Disturbance Permit Checklist**

TIER 2

Project: _____ Date: _____

Address: _____

_____ **Grading and drainage plan that shows (please initial each plan element):**

- City of Mobile benchmark reference Drainage easements
- City of Mobile right-of-way Outlet Control method is depicted
(i.e. weir, orifice, structure, device, pipe, etc.)

Storm water detention system design and a clear statement of responsibility for detention pond maintenance. Where a property owners association is responsible, an agreement so stating must be recorded prior to final acceptance.

The submittal is designed in accordance with Division 2. Floodplain Regulations of the City of Mobile Storm Water Ordinance.

Sidewalks are required unless a variance is obtained from the Planning Commission. On subdivisions, the individual property owner will construct sidewalk, when a home is constructed.

Curb cuts and sidewalks are specified to City of Mobile standards.

If wetlands are shown as such on City GIS system, a licensed environmental professional must delineate wetlands to confirm or disprove their existence.

If wetlands are to be disturbed, a Corps of Engineers permit is attached. **OR**

If wetlands are to be disturbed, a Corps of Engineers permit will be provided before a land disturbance permit will be issued.

If site drainage is not tied to the City's storm water system, a *release* agreement, meeting the approval of the City Legal Department, to run with the land from the downstream property owner(s) accepting concentrated discharge onto the adjacent property and an engineering analysis of the private or public system receiving storm water, if applicable.

If site drainage is not tied to the City's storm water system, a storm water detention design with 100-year design volume and pre-development two-year release rate (volume and velocity) is provided in lieu of release agreement, if applicable.

Select the option(s) which apply regarding the right of way:

A right of way permit is being submitted under separate cover to City Engineering Department in conjunction with the submission of the land disturbance permit application submittal to Central Permitting.

City of Mobile
Engineering Department
Land Disturbance Permit Checklist

TIER 2

Project: _____ Date: _____

Address: _____

- ___ A right of way permit will be submitted to City Engineering Department at a later date by the contractor.
- ___ A right of way permit is being submitted separately to the Alabama Department of Transportation in conjunction with the submission of the land disturbance permit application submittal to Central Permitting.
- ___ A right of way permit will be submitted to the Alabama Department of Transportation at a later date by the contractor.
- ___ There is no work in the right of way proposed on this project, therefore no right of way permit is required.
- _____ The following submission is attached for the plans:
- ___ 1. a PDF file of the plans (EMAIL to land.disturbance@cityofmobile.org), AND
- ___ 2. appropriate number of hard copies of ENTIRE LAND DISTURBANCE PLAN SET as required by Urban Development*, AND
- ___ 3. a CADD file in ONE of the following formats (EMAIL to land.disturbance@cityofmobile.org):
- ESRI Shape file format OR
Standard CAD format (DXF, DWG or DGN) OR in a format approved by the
Engineering and GIS department compatible with the City of Mobile GIS system.
- ___ 4. Any of the above formats must be referenced to the NAD83 Alabama State Plane Coordinate System (West Zone) in U.S. Survey feet.

****PLEASE NOTE IF ANY DISCREPANCIES ARE FOUND BETWEEN EMAILED PLANS AND HARD COPIES, THE CONTRACTOR PERMITTED PLAN SET SHALL GOVERN.***

LAND DISTURBANCE PERMIT WILL NOT BE ISSUED UNTIL CADD FILE AND PDF FILES ARE RECEIVED AND APPROVED BY GIS DEPARTMENT – approval takes five (5) business days from date of receipt of files.
